DON'T CARE HOW I WANT IT NOW

How many of you...

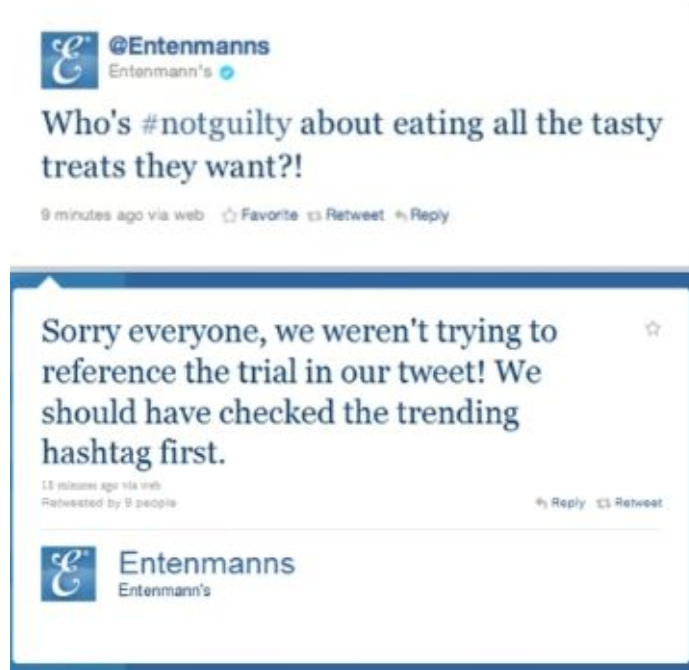

- Get your news online?
- Do research related to your work?

Social media is about what's happening NOW

Twitter especially: live tweeting is what Twitter is all about.

Colors and Branding

- Use a site like [colors.co](https://www.colors.co) to keep track of, and use your brand's color scheme on your social profile.
- In the web developer section of your browser, use the eyedropper feature to pick the colors from your logo or other branded materials.
- Alternatively, you can alter your branded image to match the colors of the social network for a really clean look.

Curation vs. Original Content

- Good original content gets you new subscribers
- Good curation gets the attention of stakeholders
 - Always @- any sources or mentions
- Be conscientious and deliberate about the mix

for others in your
community?**

Overall Goal

Overall Goal:
Your goal is
not to build
likes!

Your Goal: Build Community

Networking for the 21st
Century

Building Community Means:

- Establishing relationships
- Making yourself a known and reliable commodity
- Likes will come naturally if you're doing it right

Step ONE: Find Your Community

Let's talk about your project: who is *your* community?

Step Two: Engage

What can you provide?

Don't Get Caught up in Counting Followers

Quality content, not big numbers, draw new followers

Never buy followers!

OH MY GOD!! I have
5000 friends on Facebook
and one deleted me! I
never spoke to them
in real life and
have no idea
who it is but
AHHHHHHHH

Don't Worry About Who You're "Supposed" to Follow

- If you're seeing useless updates, you're following the wrong people.
- The great thing about finding your community: these are people you intuitively *want* to follow.

A warm, dimly lit desk scene. On the left, a glowing lantern provides the primary light source. In the center, an open book lies flat on the desk. To the right, a glass of wine sits next to two bottles of spirits, one labeled 'KEYS' and another 'WILLOW'. The background shows a bookshelf with several books. The overall atmosphere is cozy and intimate.

- Positive
- For insiders
- Short

A survey [published in The New York Times](#) found more than 19 percent of people had left a video after only 10 seconds. By a minute in, the video had lost a staggering 44 percent of viewers.

A detailed image of Simba, the lion from Disney's 'The Lion King', depicted as a monarch. He is seated on an ornate golden throne, wearing a crown with a red velvet interior and a gold exterior. He has a thick, golden-brown mane and is wearing a white fur collar with a gold chain and a large, ornate gold pendant. He holds a golden scepter in his right paw and a golden orb in his left. The background is dark and atmospheric, suggesting a royal palace interior.

The most important thing is authoring the markup correctly

A photograph of a man with a shaved head, wearing a dark suit jacket over a light-colored collared shirt. He is looking slightly to the left of the camera. The background behind him is a large screen displaying abstract, swirling patterns in shades of green and blue. A white speech bubble with a black border is positioned in front of him, containing his answer.

Facebook Business Manager & Ads Manager Accounts

Set Up Business Manager:

1. Go to business.facebook.com.
2. Click Create Account.
3. Enter a name for your business, select the primary Page and enter your name and email address.
4. Enter your information in the rest of the required fields.

Set Up Ads Manager:

Downsides to Facebook

- More personal
- More and more it's pay to play
- Always changing their algorithm
- Search engine placement is terrible
- And their own search is even worse
- More expensive than other social advertising options (still pretty cheap though)

Questions about Facebook?

Twitter

- Twitter names are unique.
- Character limit is 280.
- RT with comments.

Twitter Lists

- Great way to organize your audiences.
- Easy way to find content to curate by category.
- If they're public you can share your list as a feature.

Twitter Chats

Twitter Hashtags

- Think of hashtag as “index this tweet as...” or “file this under...”
- Tags are a balance between demand and relevance.
- Don’t use a branded tag unless you have a reason.
- Use hashtagify.me to identify tags.
- Let’s identify some tags together.

Twitter Moments vs Chained Replies

Direct Messages

Buying Twitter Ads

- Bidding:
 - Auto - best for new campaigns
 - Maximum - cap on bids
 - Target - if you know your average, you can optimize a bit lower without an actual cap on spending
- Be careful with hashtags. They create something for people to click on that leads them away from your ad.
- More cost effective to target your own followers, but doesn't expand your list.
- Twitter cards are images linked to additional options. For ex, Instant Unlock cards "Retweet this and get access to an exclusive video immediately."

Twitter

- Acquaintances
- Lists
- Real-time updates
- Updates WERE chronological
- Better search than Facebook
 - Uses hashtags
